August 18, 2010

### FILBERT AVENUE DRAINAGE PROJECT

Beginning Monday, August 23, 2010, and continuing through early fall, RJ Heuton Construction, Inc., and its subcontractors will be performing construction work on Filbert Avenue between Bryant and Moss Avenues.

The project, in general, involves removing and replacing curb, gutter, and sidewalk, and drainage improvements. Traffic control will be in effect between the hours of 7:00 a.m. and 5:00 p.m. daily. Intermittent lane closures may be necessary to accommodate construction crews and equipment. No parking will be allowed on this section of Filbert Avenue during work hours.

You are encouraged to build extra time into your schedule and plan alternate routes to avoid this segment of Filbert Avenue. The City realizes this will pose a temporary inconvenience and appreciates your cooperation and patience during this time. Residents and businesses will have access to their property at all times.

Additional information can be obtained by contacting the City's Capital Project Services Department at 879-6900 during business hours. For questions or concerns during construction, please contact contractor Randy Heuton of RJ Heuton Construction, Inc, at 864-8742.
