Agenda
Sustainability Task Force
A Committee of the Chico City Council

Meeting of Thursday, September 8, 2016 – 5:30 p.m.
Municipal Center - 421 Main Street, Conference Room No. 1 in the Council Chambers

1. CALL TO ORDER AND ROLL CALL

2. APPROVE JUNE 9, 2016 MEETING MINUTES
   Draft 06/09/16 minutes attached.

3. DISCUSSION WITH PG&E REGARDING CHICO ENERGY USE DATA, ENERGY EFFICIENCY PROGRAMS, AND COORDINATION WITH CIVICSPARK PUBLIC OUTREACH EFFORT (PG&E) – A general discussion with PG&E’s Community Energy Manager Armando Navarro regarding Chico’s 2015 Energy Summary, the status of PG&E energy efficiency programs (e.g., low income housing retrofit program), and opportunities for coordinating with the City’s CivicSpark public outreach effort in the coming year. Attached are PG&E’s Energy Summary for Chico for 2005 to 2015, and the CivicSpark Scope of Work.

4. DISCUSSION OF “TIME-OF-SALE” HOUSING INSPECTION PROGRAMS AND A REVIEW OF THE CITY’S RESIDENTIAL ENERGY CONSERVATION ORDINANCE (RECO) PROGRAM (STF Member Donnan/Analyst Jessica Henry) – The STF has had preliminary discussions regarding other communities’ “time-of-sale” housing inspection programs, and requested that the topic be agendized for discussion. Attached is an article highlighting requirements that certain cities in Southern California have when it comes to buying or selling real estate, as well information regarding the City of Chico’s RECO Program.

5. REPORTS & COMMUNICATIONS - These items are provided for the STF’s information. Although the STF may discuss the items, no action can be taken at the meeting. Should the STF determine that action is required, an item may be included on a subsequent agenda.

6. BUSINESS FROM THE FLOOR - Members of the public may address the STF at this time on any matter not already listed on the agenda, with comments being limited to three minutes. The STF cannot take any action at this meeting on requests made under this section of the agenda.

7. ADJOURNMENT - Next meeting scheduled for Thursday, September 8, 2016

ATTACHMENTS: 07/28/16 STF Meeting Minutes (Draft)
   PG&E Energy Summary for Chico 2005 to 2015

   Article with examples of city requirements at time of sale for real estate
   City of Chico RECO Information

Agenda available from the City's website at www.ci.chico.ca.us, under “Meetings/Agendas”

Prepared: 07/22/16
Community Development Department

Posted: 07/22/16
421 Main Street, 2nd Floor, Chico, CA 95928

Prior to: 5:30 pm
(530) 879-6800

Please contact the City Clerk at 896-7250 should you require an agenda in an alternative format or if you need to request a disability-related modification or accommodation in order to participate in a meeting. This request should be received at least three working days prior to the meeting in order to accommodate your request.
1. **CALL TO ORDER**

Chair Stemen called the meeting to order at 5:35 pm. STF members, City staff, and guests were present as noted.

Principal Planner Vieg shared with the STF that the City received a letter of resignation from STF member Johnson.

2. **APPROVE JUNE 9, 2016 MEETING MINUTES**

_The 06/09/16 minutes were approved 4-0-1-1; Loker absent; RossMerz abstained._

3. **REPORTS AND COMMUNICATIONS**

CDD Wolfe shared his concern with the STF that its most recent direction to forward a memo from the STF to Butte County requesting initiation of a motor vehicle fuel tax to mitigate the environmental effects of transportation was inconsistent with City of Chico AP&P 10-1, which highlights that the role of the City’s advisory committees is to provide advice, and the role of the City Council is to make policy. CDD Wolfe stated that if the STF wished to continue to pursue a
recommendation for the County to consider a gas tax, that he believes the item should first be forwarded to the Planning Commission and then to Council for its consideration.

STF members expressed their intent to work within the framework of the City’s policies.

*The STF directed staff to re-agendize the “gas tax” item for a future meeting in order to make a recommendation, and to forward the item to the Planning Commission and ultimately the City Council.*

STF Member Chastain provided an update to STF on the Sustainable Business Expo/Happy Hour scheduled for August 11, 2016, and requested that STF members promote the event to local businesses.

Principal Planner Vieg provided an update to the STF on the CivicSpark program, including completion of the Agreement with the Local Government Commission, and the upcoming schedule for the CivicSpark Member coming to Chico.

4. **PROPOSED RESIDENTIAL REMODEL RETROFIT LANGUAGE FOR INCLUSION IN THE COMPREHENSIVE 2016 BUILDING CODE UPDATE**

Building Official DePaola shared draft language for a Residential Remodel Retrofit program with the STF, and shared that he plans to bring a much larger Building Code Update item to Council in September.

Principal Planner Vieg shared that the agenda item was provided to the Chamber, Builder/Developer Group, and the Valley Contractors’ Exchange. He stated that he would also reach out to the North Valley Property Owners group as the item moves to Council.

STF Member Donnan shared his desire to pursue a Time of Sale Program.

The STF and staff discussed nuances of the proposed remodel retrofit language and estimated costs associated with the requirements of the draft ordinance.

The STF highlighted the following reasons for supporting a residential remodel retrofit program:

- Residential energy has continued to rise during the period from 2005-2016
- California Building Code requirements for new construction are the most stringent in the United States, and are updated regularly
- Chico has a large supply of older housing stock (~62% of housing stock built prior to 1990)

*The STF voted to support inclusion of the proposed Residential Remodel Retrofit program in the comprehensive 2016 Building Code update to be considered by the City Council later this year (Motion made by STF member Chastain, and seconded by STF member RossMerz. Motion passed 5-0-1; Loker absent).*
STF requested that staff notify them prior to Council’s consideration of this issue.

5. **DISCUSSION REGARDING THE CITY’S SUSTAINABILITY WEBSITE AND CONSIDERATION OF FACEBOOK PRESENCE**

STF member RossMerz and Webmaster Lundgren provided an overview of the City’s Sustainability website and the benefits of a Facebook presence consistent with the attached presentation outline.

The STF and staff discussed the need for and feasibility of creating a social media presence, specifically the benefits of a Facebook page generating activity and interest in the City’s Sustainability website.

The STF and staff also discussed the importance of making the Sustainability website “mobile friendly.”

Principal Planner Vieg committed to work to get Webmaster Chuck Lundgren under contract to maintain and update the City’s Sustainability website, and to investigate making the website mobile friendly and launching a Facebook presence.

Principal Planner Vieg shared figures with the STF showing trends in the areas of fuels sales, electricity use, natural gas consumption, and tonnage of waste to the landfill for the years 2005 through 2015. This data will be utilized in the City’s 2016 Sustainability Indicators Report.

7. **BUSINESS FROM THE FLOOR**

An announcement was made that Angela Casler had invited members of the Sustainability Task Force to come to Crush after the meeting to socialize and talk about sustainability.

8. **ADJOURNMENT**

There being no further business from the STF, the meeting adjourned at 6:45pm to the meeting of **Thursday, September 8, 2016.**

Date Approved Brendan Vieg, Principal Planner
STF Website Update

July 28, 2016 STF Meeting
Chico City Council Chambers

Presenters:
Chuck Lundgren, Webmaster
Lucas RossMerz, STF Commissioner

Update for STF Commissioners

1. Website Available on Screen
   a. Chuck will be in at 4:30 PM to set this up

2. Site Traffic
   a. Google Analytics
   b. 20-30 Visitors/day
   c. Chuck will have analytics open during presentation
   d. No Facebook, Twitter, Social media forwarding

3. Chuck's Contract
   a. Chuck invoiced for 2013
   b. Has been out of contract for two and a half years
   c. Chuck hosts the website (Free)
   d. Chuck pays the domain name (Free)

4. Regular Updates
   a. Calendar
   b. Homepage Featured Events
   c. News/Updates
   d. Meeting Agenda & Minutes

5. How we can help Chuck & Website activity
   a. Content Emails
      i. Quality JPG
      ii. Short Description
      iii. Working Links
      iv. Timeline for implementation

6. Ideas for future work & funding
   a. Mobile Friendly / responsive update (example: www.KeepChicoClean.org)
   b. New Facebook Page
      i. Chico Sustainability
      ii. Chuck is admin, Lucas has been added
      iii. Currently Private
      iv. "This page is an official page for the Sustainability Task Force of the City of Chico. The purpose of this page is to encourage local residents and
businesses to take advantage of local resources and events to help achieve the goals included in the City's Climate Action Plan."

c. Do we want TWITTER, INSTAGRAM, Etc?

d. Funding
   i. Contact Linda Herman and direct staff to look into this.

e. Site Needs:
   i. Water Issues and Sustainabilit
      1. Where does your water come from link.
      4. COST / GALLON = CO2 Emmisions (email sent out earlier)
         a. "I redid the calculation and the original number stands. Following is overkill but . . . The formula is: KWH per 1000 gals of Cold Water Pumped = Lift(in feet) X 0.00315 / Pump Eff. X Motor Eff. Or KWH per 1000 gals of Cold Water Pumped = Lift(in feet) X 0.00315 / Overall Plant Eff. So for 15 feet additional lift at an OPE of 65% KWH/1000 gals. = 15 X 0.00315 / 0.65 = 0.072692 For each million gallons = 72.692 KWH At $0.20 per KWH the cost is $14.5/MG. If they want to work in AF: 0.072692 X 325.851 gals per AF = 23.69 KWH & @ $0.20/KWH = $4.74/AF" Jim, Cal water
         b. Get the climate impact of saving 1 gallon?
    ii. Bike Map included
        2. .KML Google Map interactive (GOAL?)
        3. Currently all in PDF
    iii. B-Line Tracker Application to Download
    iv. Other Ideas or topics covered
        1.
        2.
        3.
        4.
This document will help you understand drivers of Chico’s energy usage and the ways the community and PG&E are partnering to decrease energy consumption.

Overall energy usage

This is the breakdown between Non-Residential and Residential energy usage in 2015 for Chico.

3,694,971

million British thermal units in 2015*

Energy usage has changed by 0.3% since 2005

This is the Year over Year change in overall energy usage from the prior year

*Consumption has been converted to British thermal units (Btu) to compare electricity and natural gas usage

CO2 Emissions from energy usage changed by -6.4% since 2005

202,826 MTCO2

GHG emissions from energy usage in Chico 2015

33,228 MTCO2 Avoided since 2006 through PG&E programs equivalent to 5,547 cars off the road for one year

Where Electricity Comes From

PG&E’s delivers some of the cleanest electric power in the nation. Here’s how we did it in 2014.

PG&E’s 2015 average emissions from delivered electricity were nearly 1/3 the U.S. Average (right)

(Shown in lbs CO2 per MWh, 2015 estimated)

Food 

Market Purchases 21%

Natural Gas + Other Fossil 23%

Renewables 27%

Large Hydroelectric 8%

### Residential Energy

- **Usage**
  - 51% of community energy usage (Btu) is from residential customers

- **Averages**
  - **Monthly Household Averages in 2015**
    - **Multi Family**
      - Energy usage has changed by 4.5% since 2005
    - **Single Family**
      - Energy usage has changed by -8.8% since 2005

- **Renewables**
  - **Photovoltaics**
    - Residential sites interconnected to the PG&E grid 01 to 15
    - 1,123 Sites
  - **18,245 kW**
    - CEC AC Capacity

- **Energy Efficiency**
  - 1,581 MTCO2
  - Annual avoided emissions since 2006 through PG&E programs

### Non-Residential Energy Usage

- **49%** of Chico energy usage (Btu) is from non-residential customers

- **Averages**
  - **By Season**
    - **Climate Zone 11**
      - **Average Monthly Bill (2013 data)**
        - **$81**
        - **$97**
        - **$66**

- **Renewables**
  - **Photovoltaics**
    - Sites interconnected to the PG&E grid 02 to 15
    - 207 Sites
  - **15,126 kW**
    - CEC AC Capacity

- **Energy Efficiency**
  - 12,454 MTCO2
  - Annual avoided emissions since 2006 through PG&E programs

- **Energy Usage**
  - **Electricity usage has changed by -4.4% since 2005**
  - **Energy usage has changed by 7.4% since 2005**
  - Residential electricity usage has changed by 13.8% since 2005
  - Residential natural gas usage has changed by 0.3% since 2005

- **Non-residential energy usage has changed by -6.4% since 2005**

- **Non-residential natural gas usage has changed by -8.8% since 2005**

- **Clima...**
  - **207,000 MTCO2**
  - Annual avoided emissions through PG&E programs
  - **257,000 Thermo Saved**
  - **48,952,000 kWh Saved**

- **The top 7 Segments were responsible for 80% of energy usage in 2015**

- **CO2**
  - 257,000 Thermo Saved
  - 48,952,000 kWh Saved
CivicSpark Scope of Work

There are a number of Actions in Chico’s General Plan and Climate Action Plan (CAP) that call for public engagement/education, as well as a community challenge. The Actions are focused on a variety of sustainability fronts (all of which will help the City achieve its GHG emission reduction goal), including reduced energy use, alternative transportation options, and reduced water consumption. The City works closely with a variety of organizations to promote sustainability, including PG&E, Cal-Water, BCAG, Chico Sustainability Task Force, Sierra Nevada Brewing Company, CSU, Chico, local TV stations, etc.). The CivicSpark Member, in concert with community partners, will develop a comprehensive community "challenge" program that integrates the similarly-themed CAP and General Plan Actions. The outreach program will inform and inspire the Chico community about the need to reduce GHG emissions and foster a sense of involvement in and ownership of climate action. The desired outcome is a robust and memorable community challenge that fosters a positive and healthy change in peoples' behavior. Deliverables will be established through development of the community engagement program, but will likely include:
- Program branding;
- Identification and coordination of community partners;
- Assessment of existing opportunities, rebates, programs, etc.;
- Development of a unique message, or "challenge", delivered through a number of media formats; and
- Enhancements to City's Sustainability Website.
City Requirements for Buying or Selling Real Estate in southern California

Many cities have special requirements when it comes to buying or selling real estate. These items can range from a simple form to fill out, to a full housing inspection by the city, depending on which city, and the city's current ordinances.

This can be confusing, and so Talbrook II Escrow Corp. has compiled a list containing each city requirement in this regard, for some of the most common cities in southern California.

We will continue to update this list, however due to the nature of change and city governance, we can not be held liable for any type of loss or any information which may be incorrect, although we do our best to verify the integrity of our information.

You may download our list in PDF format, or scroll down to view the City Requirements for Buying or Selling Real Estate in southern California.

Every city has in place their own policies and requirements for the sale or transfer of real estate. We have provided this document for your reference, in the event that you conduct a real estate sale or transfer transaction in the following cities:

- City of Laguna Beach

A Real Property Report Form is required to be submitted to the Business Planning & Zoning Dept. Each Report is to be obtained and submitted in person only, by the seller. Form fee is $350.

Laguna Beach City Hall • 505 Forest Avenue • Laguna Beach, CA • 92651 • (949) 497-3311

- City of Newport Beach
A Residential Building Inspection is required via a city code inspector. For more information, contact Jana Egan (949) 644–3216 or Susan McCourt (949) 644–3289. Seller’s side is responsible to order. Buyer may waive actual inspection but fees must still be paid.

- Single Family Residence $ 150
- Duplex $180

City of Newport Beach · 3300 Newport Blvd. · Newport Beach, CA · 92663

» City of Burbank

A Retrofit Requirement ordinance requires that all properties resold in Burbank meet specific plumbing requirements for toilets, urinals, shower heads, and kitchen and bathroom faucet aerators as a condition of escrow. Compliance is the responsibility of the seller/transferor and is a condition of escrow.

Burbank Department of Water & Power: (818) 238–3700
City of Burbank · 164 W. Magnolia Blvd. · Burbank, CA 91502-1720 · Burbank Water & Power

» City of Carson

A Residential Property Report ($150 Residential / $100 Condo) is required to be submitted to the Building & Safety Division. The seller or seller’s agent is highly encouraged to be present at the time of inspection. A business license may also be required for a realtor doing business within the city limits.

- Division of Building & Safety (310) 952–1766
- Revenue Division (Business License) (310) 952–1748

Positive Feedback!
FAQ – CITY OF CHICO RESIDENTIAL ENERGY CONSERVATION ORDINANCE (RECO)
RETROFIT PROGRAM, JANUARY 2015

Where do I start?

- If the residential property is in City of Chico limits and was constructed pursuant to a building permit issued prior to July 1, 1991, check to see if there is a current retrofit compliance certificate for the property – certificates are valid for 10 years.
- Certificate list and other retrofit program information can be found on the City’s website - www.ci.chico.ca.us, Building Division page, right-hand side.

What is the overall process to comply?

- Schedule an inspection by a City Certified Energy Conservation Inspector, list available on website.
- The inspector will determine what measures are out of compliance, then the seller will complete the required measures in priority order, have the inspector certify compliance, and an inspection form will be forwarded to the City Building Division for issuing a compliance certificate.

How does the cost limitation work?

- Minimum R-30 ceiling insulation must be installed regardless of cost.
- If the cost of required insulation was under $800 - then you need to complete required additional energy conservation measures in priority order until you reach a total of $800 spent.
- If the cost of required insulation was $800 or more - then you are done.
- Cost limitation is per single family residence, including condominiums.
- For multi-family with two or more units, the cost limitation above is $560/unit.

Do I get credit for the money I recently spent installing R-30 ceiling insulation and additional energy conservation measures?

- Yes, if it the required insulation and additional measures have been installed within 42 months (3 ½ years) preceding the sale/transfer. A receipt or invoice is required.

Are there other energy conservation measures that count towards this program?

- Yes, but first minimum R-30 ceiling insulation must be installed.
- Credit for other energy conservation measures installed within 10 years preceding the sale/transfer may be granted by the Building Official. Examples include replacing single with dual-paned windows, HVAC, tankless water heaters, and solar panels. A City of Chico Building permit must have been obtained, finaled, and verified to receive credit for any other measures.

What if the buyer instead of the seller is going to have the retrofit work done?

- Complete a Retrofit Transfer of Responsibility Agreement, form available on website.

What are common exemptions from program?

- Factory-built housing, mobile homes, manufactured housing.
- Sale/transfer by court order - probate court, administration of a trust, foreclosure, bankruptcy.
- Transfers – result of default, to co-owner, to spouse or relative, between spouses in divorce.
- Short sale.

Where can I find additional information or get assistance?

- City’s website - www.ci.chico.ca.us, Building Division page.
- Current RECO program administrator, Jessica Henry, jessica.henry@chicoca.gov, 530-879-6820.
- Building Division, 530-879-6700, 411 Main Street, City Hall, 2nd floor, closed 12:00-1:00 pm.
In 1991 and then amended in 2010, the City of Chico enacted a Residential Energy Conservation Ordinance (RECO) requiring property owners to provide certain energy and water conservation measures upon the resale of residential properties. The intent is to lessen the impacts of rising energy and water costs on renters and homeowners. The specifics of the ordinance can be found in Chapter 16.60 of the Chico Municipal Code (CMC).

The CMC indicates that every home, condominium, or apartment building built prior to July 1991 must have the following energy/water efficiency measures, listed in order of priority, before being sold or transferred:

1. All accessible attic space with 30" or greater headroom must be insulated to a minimum thermal resistance rating of R-30.
2. All major cracks, joints, and other openings in building exteriors must be caulked, weather stripped, or otherwise sealed to limit air infiltration.
3. All sink and lavatory faucets must be fitted with low-flow faucets with a maximum flow rate of 2.75 gallons per minute or an aerator.
4. All shower fixtures must be fitted with in-line shower restrictors or low flow shower heads which a maximum water flow rate of 3-gallons per minute, except where:
   a. The shower head has an existing flow rate of less than three gallons per minute as a result of reduced water pressure;
   b. The shower head and shower arm are of a ball joint type which is connected within a wall.
5. Unless determined unfeasible, all toilets must be low-flow toilets rated at 1.6 gallons per flush or less.
6. Thermostats must be programmable, where feasible.
7. All exposed cold water lines connected to and within five-feet of existing water heaters, and all hot water lines from water heaters in unconditioned spaces are to be insulated at a minimum thermal resistance rating of R-3.
8. All domestic water heaters must be fitted with external insulation blankets with a minimum rating of R-6, except where:
   a. The interior thermal resistance rating of the water heater is at least R-12; or
   b. It is impractical to wrap the water heater with an external blanket.
   c. The manufacturer’s instructions for the water heater preclude the water heater from being fitted with an external blanket.
9. All ducts in accessible areas shall be visually inspected to determine if they are intact and functioning properly.

EXEMPTIONS:

1. The sale, exchange, or transfer of residential housing constructed pursuant to a building permit issued on or after July 1, 1991;
2. Any residential building for which there is certified proof of compliance within 10 years from the sale/transfer;
3. Factory-built housing, manufactured or mobile homes;
4. Sales or transfers pursuant to a court order, such as:
   a. Transfers ordered by a probate court or in the course of administration of a trust or conservatorship;
   b. Judicial foreclosures or other transfers by a trustee in bankruptcy;
5. Transfers as a result of default to bank;
6. Transfers from one co-owner to one or more co-owners;
7. Transfers to a spouse or certain relatives;
8. Transfers between spouses as a result of divorce;
9. Short sales, defined as sales in which the purchase price paid by the buyer of the property is less than the amount of the debt secured by the property.

COST LIMITATIONS:

Because the cost savings can be immediate, it is advantageous for property owners to comply with the requirements now even if they do not intend to sell their property in the near future. Most of the work can be conducted by the homeowner at their leisure.

The CMC does limit the maximum amount you may have to spend on some measures to comply with the ordinance.

1. Minimum R-30 ceiling insulation must be installed regardless of cost.
2. If the cost of required insulation is under $800, additional measures are required until $800 is reached.
3. If the cost of required insulation is $800 or more, then no additional measures are required.
4. For multi-family residences with two or more units, the cost limitation above is $560 per unit.

Property owners may receive credit toward the maximum expenditure for measures installed within 42 months prior to the sale. The Building Official may grant credit for other conservation measures not listed above that were installed within 10 years prior to the sale.
1. **Check To See if an Inspection is Required.**

   If the residential dwelling being sold or transferred was constructed pursuant to a building permit issued prior to July 1, 1991 and has not received a RECO energy conservation inspection within the last 10 years, it must be inspected again. To find out if your property previously received a RECO compliance certificate, check the City of Chico’s website, www.ci.chico.ca.us, Building Division Home Page.

2. **Schedule an Inspection.**

   If a compliance certificate is not on file and an inspection is required, the property owner has to obtain a RECO inspection from a City Certified Energy Conservation Inspector.

   A current list of City Certified Energy Conservation Inspectors is posted on the City of Chico’s website, www.ci.chico.ca.us, Building Division Home Page.

   A RECO inspection can be combined with a regular private home inspection if already being conducted at the request of the buyer or seller. The RECO part of the inspection must be completed by a City Certified Energy Conservation Inspector.

   The fees for private inspections are not set by the City.

3. **Complete the Work Needed for Compliance and Submit the Inspection Form to the City.**

   a. If additional measures are needed, owners may choose to perform the work themselves and greatly reduce the costs of compliance, or they may hire someone to perform the work.

   b. If the property is not in compliance, the seller may transfer the responsibility to the buyer if mutually agreed by both parties. A city-approved form must be signed by the buyer, and submitted to the Building Division. Buyers will have 180 days to complete the RECO measures after sale/transfer.

   Once the work is completed, or if no additional work is required, the inspector must certify compliance by completing and signing a City-supplied conservation inspection form. The signed inspection form must be submitted to:

   City of Chico, Building Division
   PO Box 3420
   Chico, CA 95927
   411 Main Street, 2nd floor
   Fax: 530-895-4726

**CERTIFICATE OF COMPLIANCE:**

After receiving an inspection form, the City Building Official will review the form and determine whether the property is in compliance with RECO. Once approved, a Certificate of Compliance will be issued to the property owner or the owner’s representative. The City will keep the certificate on file for 10 years.

**VIOLATIONS:**

A violation of the RECO provisions in CMC Chapter 16.60 is an infraction and may be punishable by a fine.

**ADMINISTRATIVE REVIEW/APPEAL:**

Any owner, transferee, or occupant, aggrieved by a determination made or action taken by the Building Official pursuant to CMC Chapter 16.60 may apply for an administrative review of such determination or action by the Community Development Department Director. Applications for administrative review shall be made in writing and submitted to the Director within 15 days from the determination or action.

Owners, transferees or occupants may also appeal the decision made by the Director to the Chico City Council as provided by CMC 16.60.

**ADDITIONAL RESOURCES:**

Free showerheads and aerators, rebates, and other helpful information can be found at:

- **California Water Service Company**, (530) 893-6300
- **Pacific Gas & Electric**, 1-800-743-5000
- **Valley Contractors Exchange**, (530) 343-1981

**QUESTIONS?**

For further information regarding the RECO requirements, please check the City’s website, www.ci.chico.ca.us, Building Division Home Page.

The Building Division can also be reached at (530) 879-6700, and is located on the 2nd floor, Chico Municipal Center, 411 Main Street, Chico.
# REQUIRED CONSERVATION MEASURES TO BE INSTALLED IN ORDER OF PRIORITY
