California Government Code Requirements

Pursuant to the provisions of California Government Code Section 66006(b), the City of Chico, within 180 days after the last day of each fiscal year, shall make available to the public the following information:

1. A brief description of the type of fee in the account or fund.
2. The amount of the fee.
3. The beginning and ending balance of the account or fund.
4. The amount of fees collected and the interest earned.
5. Identification of each public improvement on which fees were expended and the amount of expenditures on each public improvement, including the total percentage of the cost of the improvement funded with the fees.
6. Identification of an approximate date by which construction of the public improvement will commence if sufficient funds have been collected to allow financing of the project.
7. Description of any interfund transfer or loan made from the account, including the public improvement on which the transferred or loaned funds will be expended. In the case of an interfund loan, the date on which the loan will be repaid and the rate of interest that the account or fund will receive on the loan.
8. The amount of refunds made pursuant to Section 66001(e), if any.

Street Facility Improvement Fee (Fund 308)

A. Description and Purpose

Pursuant to Section 3.85.290 of the Chico Municipal Code, “street facility improvement” means any collector street, arterial street, or other major street or highway; any bridge, storm drain, sidewalk, curb, gutter, street light, traffic signal, street sign or other facility necessary or appurtenant to a collector street, arterial street, or other major street or highway; and any real property acquired for the purpose of constructing and installing such improvements or other facilities necessary and appurtenant thereto.

The purpose of the Street Facility Improvement Fee is to provide funding for the construction of those improvements to the City’s street system which are required to provide a community traffic circulation system to accommodate a population projected to be 134,000 by the City of Chico General Plan. The new residential, commercial and industrial development which is projected to occur to build-out will generate significant additional traffic and the need to improve and expand the City’s street facilities system. Fees are used to fund the needed improvements.

B. Amount of Fee

The City’s Street Facility Improvement Fees, as adopted by resolution of the City Council, are contained in Fee Schedule No. 50.010, which is available on the City’s website.

Basic Park Facility Fee (Funds 330, 333, 341-348)

A. Description and Purpose

As set forth in the Chico Municipal Code (CMC), Basic Park Facility Fees are comprised of three components. The first component is the Community Park Facilities Fee, defined in CMC Section 3.85.230 as any park facilities other than Bidwell Park which are intended to serve the recreational needs of all of the residents of the city. CMC Section 3.85.237 defines the second component, Linear Park and Greenway Facilities, as those narrow public open spaces maintained in a natural or landscaped state. Linear park and greenway facilities located along the banks of a creek may include all adjacent riparian habitat. The third and final component, Neighborhood Park Facilities, are defined in CMC Section 3.85.260 as those park facilities which are intended to serve the recreational needs of only a portion of the residents and other inhabitants of the city.

The purpose of this fee is to provide funding for the acquisition and improvement of those park facility projects required to augment the City's current park system and to accommodate the needs of projected new growth and development in the community.

B. Amount of Fee

The City's Basic Park Facility Fee, as adopted by resolution of the City Council, is contained in Fee Schedule No. 50.030, which is available on the City's website.
