

# Other Building Escape Plans

---

## **Hotels and Motels:**

Upon checking in, locate all fire exits and wall fire extinguishers. If you smell smoke, report it to the manager immediately.

## **Office Buildings:**

Know all fire escapes. Avoid elevators because the fire may stop them between floors and trap you. STAY CALM and make your escape safely and quickly.

## **Schools:**

Leave in an orderly manner. Stay outside until the all clear is given.

## **Public Buildings:**

Be aware of all fire exits and wall extinguishers. Remember where they are if fire threatens.

## **Assembly Halls:**

Never shove or push others on your way out. Help to lead the confused, young, or elderly out.
